

- Five or six key stakeholder groups representing Early Care and Education, Parenting & Family Support, Health & Social Services, and Schools will participate in **Stakeholder Focus Groups**. Members of the School Readiness Partnership will be invited to attend the session most relevant to their area of interest.
- Several volunteers from each Stakeholder Focus Group will participate on the **Neighborhood Team**, so that the team effectively represents parents, family advocates, early care and early education providers, school personnel, faith-based community representatives, etc.
